MEDIUM DENSITY SILICONE FOAM

This medium density silicone foam is an excellent material for gasket applications. It is grey in color and has a smooth finish.

- High & Low temperature Resistant
- High Compressibility
- Low Compression Set
- UV / Ozone Resistant
- AMS3195
- UL-94 V0 Flammability

PROPERTIES	TYPICAL VALUES
Density, lbs/cu.in.	.013
Compression Deflection, psi	7-11
Compression Set, 22 hrs. @ 212°F	1%
Water Absorption, %	<5
Temperature Range °F	-55 to 400
Tensile Strength, psi	>36
Elongation, %	>70
Flammability	UL-94 V0

These typical physical properties are provided for evaluation information only.
It is up to the end-user to determine the appropriate material for the intended application.
